

Uyen Nguyen

University of Arizona

Uyen Nguyen was born in the city of Mekong Delta, Vietnam. She received her bachelors degree in Soil science and Land Management at Cantho University. Her master degree is in Geo-Information Science and Earth Observation from the Twente University, The Netherlands. In May 2015, she completed her PhD degree program in Soil Water and Environmental Science at the University of Arizona. Uyen's current research focuses on long-term vegetation dynamic and how they respond to climate and human interactions. Her particular interest is in integrating ecological methods and remote sensing data, special analysis and climate dataset to determine what factors that significantly impact on vegetation in different ecosystems of the Southwestern.
